Furniture & Lighting

Ideaology **The objects we surround ourselves with in our homes reveal us to the world. Let your furniture and lighting speak volumes.**

Expect more from design (we do).

Menu's philosophy is simple. We want to make the world better, less complicated, a little bit nicer to wake up to. Collaborating with super-talented designers, we make objects to be treasured now... and forever. We work with some of the most exciting and driven creative individuals from the worlds of architecture and design to produce high quality design with a crisp Scandinavian look.

At Menu we are obsessed with clever solutions for modern living. We want to make beautiful objects for everyday use, whether that's an indispensable item of kitchen equipment, a clever floating shelf or a beautiful vase that adds the finishing touch to your living space.

Wherever we can, we work locally with craftspeople around the world, preserving skills while creating the best modern design.

WM String Chair
Deceptively simple, the airy and delicate appearance of String Chair belies the obsessive attention to detail devoted to its design by Studio WM, Rotterdam-based duo Wendy Legro and Maarten Collignon. "The contrast between the thin metal wire and soft pillow evokes the urge to touch and use the chair." Versatile and durable, use WM String Dining Chair inside or outdoors. The cushion is not water resistant.

The Standard

Designed with an eye to both beauty and function by one of Belgium's most talked-about young designers, Sylvain Willenz, The Standard has all the makings of a modern classic. Its beautiful soft light makes this an ideal lamp for the dining room or above an office table. Its sense of purity and balance make it a pleasure to behold.
