3 Sé About Us

When Sé began in 2007, director and founder Pavlo Schtakleff had a goal – to become a dynamic and innovative presence in the world of contemporary luxury design. Sé’s visionary idea was to invite some of the world’s finest furniture designers to produce collections, akin to an art gallery or a couture house, the ultimate object being to build a catalogue of highly-crafted and beautifully-finished objects, made of the finest materials, by the best craftspeople in Europe.

Since then, the London-based company has stayed true to its founding ethos and to date, Sé has created three editions from the French designer Damien Langlois-Meurine, the Spanish-born Jaime Hayon and Slovenia-based Nika Zupanc, all of which have been highly acclaimed.

Under Sé’s stewardship, each collection has its own sensibility and character, while harnessing a personality, polish and sheer sense of finish that is undeniably Sé. All our pieces are the products of the most exacting collaborations. They are sensual, tactile and cerebral, inviting the gaze and the touch as well as engaging the mind.

Curated in London and fabricated across Europe to the highest technical standards, Se aims to make furniture that not only delights, but also has a real sense of occasion.

Designers

Damien Langlois-Meurinne

Collection I

Damien Langlois-Meurinne is a Paris-based designer and decorator.

After starting his career in Christian Liaigre's office, he was hired by the German fabric company Zimmer + Rohde to create an in-house furniture collection. In 2003, he set up his own firm, Agence D.L.M., and has since worked on a wide range of projects: offices, showrooms and several high-end residential commissions. Among them, a house in Saint-Tropez, a former artist's atelier in Montparnasse, a flat in Megève and a 250m² apartment on Paris's exclusive Avenue Foch.

Each time, his aim is not to impose a style. Instead, he imagines schemes that are finely adapted to the specific space, as well as to the needs and desires of each client.

In September 2005, he opened a showroom in the Marais district, where he exhibits his own line of furniture and lighting. For Langlois-Meurinne, quality is of the utmost importance. He works with the best French craftsman to produce pieces that are made strictly to order.

He favours the use of noble materials, such as linen, lacquer, bronze and solid woods (oak, walnut, sycamore, sipo).

Furthermore, he believes in creating objects, which do more than simply fulfil a function. They also have an intrinsic aesthetic value.

A Langlois-Meurinne mirror is not simply a mirror. It is also a sculptural object. "A successful design", he says, "is one that is endowed with a touch of poetry, freedom and fantasy".

Damien Langlois-Meurinne's work has been featured in a number of French and international publications. Among them, AD Allemagne, AD Espagne, Elle Déco Japon, Decoration Allemagne, Eigenhuis Pays-Bas, Home Decor Singapour, Résidences France, Numéro France, Elle Déco France.

Designers
Jaime Hayon
Collection II

Spanish artist-designer Jaime Hayon was born in Madrid in 1974.

His vision was first fully exposed in the 'Mediterranean Digital Baroque' and 'Mon Cirque' installation. These collections put Jaime at the forefront a new wave that blurred the lines between art, decoration and design and a renaissance in finely-crafted, intricate objects within the context of contemporary design culture.

Jaime further defined his vision in subsequent solo exhibitions and shows at major galleries and design and art fairs all over the globe. His wide client base spans diverse functions and mediums, including domestic furniture for b.d. ediciones, ArtQuitect, Established and Sons, Moooi, Gaia and Gino, among others. He has designed lighting fixtures for Metalarte and Swarovski and sophisticated objects for Bisazza, Lladró and Baccarat.

He has also executed complete interiors for leading hotels, restaurants and retail establishments.

Jaime currently resides in London, with offices in Barcelona and Treviso (Italy). His work has appeared in the most prestigious art and design publications worldwide. He has won numerous awards. Most recently, he was guest of honor at the 2008 Interieur Biennial in Belgium, the youngest person ever to receive the accolade.

Designers
Nika Zupanc
Collection III

Slovenian product and interior designer Nika Zupanc graduated with distinction from the Academy of Fine Arts and Design in Ljubljana in 2000. Since then she has gained a sterling reputation for a body of work that in her own words, “challenges the rational, sober and utilitarian by giving voice to the intuitive, eclectic and intimate”.

Nika’s acclaimed collection for Sé is an extraordinary range of pieces based around the loose theme of the Olympics and sports clubs, including the Trophy table lamp and the ingenious three-sided Olympia Mirror. Elsewhere, Nika has continued to build her portfolio to rising acclaim.

A particularly well-loved piece of hers is the Lolita table lamp, produced by Dutch design brand Moooi, and in the last few years, Nika has become one of the most closely-watched designers at Milan Design Week: not just for her stand-alone products but also for her installations, including Love Me More, curated by Rossana Orlandi.

She also made a Room of One’s Own for Esprit Dior, and designed the atmospheric As Aperitivo bar in her home town Ljubljana – fantastic immersions into her design sensibility.

Nika’s pieces carry an emotional charge as well as being exquisitely finished, which is why Elle USA characterised her work as “punk elegance”. There’s a touch of theatre and Film Noir in her work, and somehow her pieces make the user feel like an actor. As for Nika, explanation is unnecessary. Her visual language comes from deep within and is about “communicating the things that cannot be told.”

A close-up, black and white photograph of a person's hand gripping a metal chair frame. The hand is positioned in the upper center of the frame, with fingers wrapped around a horizontal bar. The chair's frame consists of several curved metal bars, creating a complex geometric pattern. The background is dark and out of focus, emphasizing the hand and the chair's structure. The overall mood is one of stability and support.
